

Professional Profile

A versatile Software Developer with experience in **Full-Stack** web, cross-platform mobile development, and **AI Automation**. Proficient in building scalable, intelligent applications using **React, Next.js, and Flutter**. Skilled in leveraging **n8n** to create automated, AI-driven workflows and system integrations, with a strong focus on performance, data accuracy, and architectural scalability.

Experience

2025 **Full-Stack Developer(Contract)**, *Cozmiq LLC*, Remote

- Build production ready E-commerce sites or implemented key features for applications like **neobuilder**, **Vednoir**, **EcoGoodsDirect** and **Vertex Store**.
- Developed systems to ensure data accuracy and a seamless user experience between the user interface , back-end databases, and core services.
- Collaborated directly with clients, team to collect requirements and translate business needs into functional technical specifications.
- Utilized version control tools (Git, GitHub) to manage project timelines, track changes, and maintain detailed documentation

Top Projects

DenDesk (FullStack Dev) - [Visit Website](#)

- Developed a **multi-tenant AI chatbot platform for dental business** that automates **customer support** and **lead capture**, featuring a seamless human-takeover toggle for high-stakes conversations.
- Engineered a zero-setup **RAG** pipeline (**OpenAI**, **pgvector**, **N8N**) that instantly trains **context-aware AI** assistants using only a business's website URL.
- Deployed embeddable React widgets and **Retell voice AI agents** specifically designed to convert customer interactions into booked appointments or captured leads.
- Built a **real-time admin portal** with Supabase and automated Stripe billing, offering businesses live chat monitoring and streamlined subscription management.

Vednoir (Frontend Dev) - [Visit Website](#)

- Engineered the secure user authentication and account management system, integrated with phone verification and responsive modals.
- Developed the entire multi-step e-commerce checkout flow, successfully integrating the **Razorpay payment gateway** for order processing.
- Built the complete User Dashboard (Order History, Address Book) and executed significant UI/UX refactoring across the Next.js platform.

EcoGoodsDirect - [Visit Website](#)

- Developed a sustainable e-commerce platform specializing in natural fiber (Jute/Cotton) bags to promote environmentally conscious shopping.
- Built the front-end using **Next.js** to ensure a high-performance, eco-friendly shopping experience.
- Integrated the e-commerce functionality and product catalog via the **WooCommerce** API.

Vertex Store - [Visit Website](#)

- Created a modern, high-performance e-commerce storefront utilizing the capabilities of **Next.js** for speed and scalability.
- Integrated all core product and inventory logic by connecting the platform with the robust **WooCommerce** back-end API.
- Designed and implemented a customizable solution with a modern UI/UX, optimized for both developers and high-volume online businesses.

Education

- Ongoing **B.Sc. in Information and Communication Engineering**, *Daffodil International University*, Dhaka, Bangladesh
Relevant coursework: Digital Signal Processing, Networking, System Design, Communication Systems
- 2021–2022 **Higher Secondary Certificate (Science Group)**, *Dhaka Commerce College*, Mirpur, Dhaka

Certifications

- 2024-ongoing **Google IT Support** – Google, Coursera
- 2021 **Programming Foundations with JavaScript, HTML, and CSS** - Duke University, Coursera
- 2020 **Python for Everybody Specialization** - University of Michigan, Coursera

Skills

- Programming **TypeScript, JavaScript, Java, Dart**, Python, Go
- Frameworks **React, Next.js, Nest.js, Express.js, Spring Boot**, Vue.js
- Tools **n8n, Docker, Git**, Firebase, **Supabase**, CI/CD, **MCP**, Wordpress, shopify, MongoDB, **Tailwindcss**, Shadcn/ui
- Soft Skills Communication, Adaptability, Collaboration, User Support, Collaboration
- Hard Skills Debugging, System Administration, Testing, Troubleshooting, Networking, Linux

Languages

- Bengali Native Proficiency
- English Fluent
